THE NEW FACE OF INFORMALITY IN THE TANZANIAN MINERAL ECONOMY

AngloGold Ashanti – which refines an estimated 80% of Africa's gold. Acacia Mining in contrast exports its dore bars to **refineries in Switzerland**, home to five of the world's ten largest refineries, which collectively account for 38% of total global annual refining capacity (The Real Asset Company 2013).

The new face of informality in the Tanzanian mineral economy: Transforming artisanal mining through foreign investment?

African Barrick Gold plc Prospectus

J.P.Morgan CAZENOVE Morgan Stanley

Production and sales by the ABG Group

The ABG Group's mines produce doré and concentrate

The ABG Group's doré, which contains gold and an immaterial amount of silver, is currently being refined to market delivery standards by one refiner, **Argor Heraeus**, located in Switzerland. Each mine in the ABG Group delivers its doré to the refiner by air transport approximately two to three times per month, at which time the risk of loss transfers to the refiner. At such time as the doré is shipped, the relevant ABG Group company is paid by a wholly owned subsidiary of Barrick, Barrick International (Barbados) Corp. ("BIBC"),

In the matter between

Barrick Gold Corporation

Primary Acquiring Firm

And

Randgold Resources Ltd

Primary Target Firm

Panel	: Enver Daniels (Presiding Member)
	: Imraan Valodia (Tribunal Member)
Heard on	: 31 October 2018
Order Issued on	: 31 October 2018
Reasons Issued on	: 16 November 2018

REASONS FOR DECISION

Approval

- [1] On 31 October 2018, the Tribunal unconditionally approved the large merger transaction between Barrick Gold Corporation (Barrick Gold) and Randgold Resources Ltd (Randgold Resources), hereinafter collectively referred to as the 'merging parties'.

CONFLICT MINERALS REPORT

Summary of Apple's Commitment to Responsible Sourcing

Apple is deeply committed to upholding human rights across its global supply chain. Apple works to safeguard the well-being of people touched by its supply chain, from the mine site level to the facilities where products are assembled. Apple's suppliers employ millions of people at their respective facilities, which range in size from a few employees to hundreds of thousands.

Apple is also committed to protecting the environment. Apple's goal is to use only recycled and renewable materials in its products. Apple is also committed to improving the environmental performance of its existing programs to source tin, tantalum, and tungsten, meeting and exceeding legal requirements, and improving conditions on the ground.

Apple's comprehensive approach to responsible sourcing is outlined in the Apple Supplier Responsibility Report. The Apple Supplier Responsibility Report outlines the requirements for suppliers to assess and identify a broad range of risks. Suppliers are also required to engage with 3TG traceability and

Beyond supplier requirements, Apple's programs on the lives of people and the environment empower independent, local voices.

As of December 31, 2019—for the calendar year 2019—Apple products manufactured during calendar year 2019 participated in an independent third-party conflict minerals audit ("Third Party Audit") program for 3TG. These audits encompassed the identified smelters and refiners that provide materials for Apple's iPhone®, iPad®, Mac®, iPod touch®, Apple TV®, Apple Watch®, AirPods®, HomePod™, and Beats® products; Apple Card™; and all Apple accessories.
