20. CONTROLLING PARTY

The Company's immediate parent undertaking is SCCL Holdings Limited, a Company whose registered office is the same as Saltend Cogeneration Company Limited. The smallest group in which the results of the Company were consolidated for the year ended 31st December 2020 was that headed by SCCL Holdings Limited.

The immediate parent Company of SCCL Holdings Limited is Triton Power Limited. Triton Power Limited is registered in the Channel Islands with a registered address at 22 Grenville Street, St Helier, Jersey, JE4 8PX. The entity which heads up the largest group in which the results are consolidated is Triton Power Holdings Limited, which is a Company registered in the Channel Islands, the registered address of which 22 Grenville Street, St Helier, Jersey, JE4 8PX. The Directors consider the ultimate controlling party to be Energy Capital Partners III LLC.

21. RELATED PARTY DISCLOSURES

As at 31st December 2020, the Company was a wholly owned subsidiary of SCCL Holdings Limited which is wholly owned by Triton Power Holdings Limited.

During the year, transactions between wholly owned members of the Group have taken place in the normal course of business. The Company has taken advantage of exemption under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the Group.

E.ON completes sale of Uniper stake and writes a new chapter for the future

06/26/18

Today E.ON SE successfully completed the sale of its 46.65 percent stake in Uniper SE to Fortum Corporation. All conditions for the completion of the voluntary public takeover offer have been met – with the European Commission and the Russian Antimonopoly Authority having given merger control approvals – the transaction has now been completed and closed. In total, E.ON received approximately €3.8 billion from the transaction for its remaining shares in Uniper.

Johannes Teyssen: “The sale of our remaining shares in Uniper to Fortum marks the end of a chapter in E.ON’s history. We wish Uniper – and thus our former colleagues – every success for the future. At the same time, E.ON is already writing a new, groundbreaking chapter for the future. We will become the leading provider of intelligent energy networks and modern customer solutions in Europe. The company of choice for 50 million customers.”

In September 2017, Fortum and E.ON signed an agreement under which E.ON had the right to decide to tender its Uniper stake into Fortum’s voluntary public tender offer. E.ON decided at the beginning of January 2018 to tender its shares.

Uniper was spun off from E.ON in 2016. 53.35 percent of all Uniper shares were transferred directly to the portfolios of E.ON shareholders. Fortum is a leading energy company headquartered in Finland.

This press release may contain forward-looking statements based on current assumptions and forecasts made by E.ON Group Management and other information currently available to E.ON. Various known and unknown risks, uncertainties, and other factors could lead to material differences between the actual future results, financial situation, development or performance of the company and the estimates given here. E.ON SE does not intend, and does not assume any liability whatsoever, to update these forward-looking statements or to align them to future events or developments.

Problem: one of the datasets was old...

The analysis

1. **Combining all the countries.**
2. **Pivot tables and...**
3. **Looking for those at the top of the list.**

How to communicate
the story?

The 15 companies

1. UK focus
2. Problem...

... the EU Emission
Trade System accounts
for a fraction of the
overall CO2 emission

... not easy to
understand

The carbon budget

Solution:

Second calculation

How much does the ETS account in the overall UK emissions?

What is the proportion of our 15 companies?
